

SEVEN STEPS for MAKING YOUR OWN BOOKMARK: ...

1. Print the design below
2. Then cut round outside the dotted line
3. Then fold lengthwise and glue together
4. Then allow to dry flat inside a book, (make sure there is no glue on the outside of your new bookmark)
5. THEN, once dry, trim to suit your requirements. Your finished bookmark will measure approx. 8½ " x 2¼"
6. Then carefully with the help of a hole punch (and practise on a spare bit of paper first), make ONE hole at the top and one at the bottom and add a ribbon or string or a tassel or whatever you want. (None if you prefer none!)
7. You can repeat the process to make as many bookmarks as you want.
